Dear Parent/Carer

KS3 Design Technology Materials Payment

As you may know, the production of practical work which is taken home is a key part of Design Technology. During Year 7 & 8 your child will be making a range of Resistant Materials projects (wooden, electronic and acrylic products), a fabric based Textiles product and a variety of food products. In the past many students do not take their work home as they forget to bring their money, which is a financial contribution towards the overall cost of the materials.

To remove this problem, we are asking for a single payment of £10 at the beginning of the year. This contribution does not cover the cost of fresh ingredients in Food, but does include ingredients such as flour, butter, milk, and other such sundries of which your child's teacher will make explicit in each lesson. You can pay using the Academy's online system on the website or by cash and cheque. If your child is in receipt of Pupil Premium funding, then you are under no obligation to do so.

Thank you in advance for supporting your son/daughters education.

Yours sincerely

Mrs D Rhodes
Head of Design Technology
