
Parents/Carers of Year 10 Students

Our Ref: TWO/lha

7th October 2019

Dear Parents/Carers

On Tuesday 15th October 2019 students will be taking part in the first Personal Development Day of the academic year. The day focuses on providing the students with the opportunity to further their educational experience, explore learning complementary to their formal curriculum and encourage students' personal development both in and outside of the Academy.

Across the year we have monthly themes we are encouraging students to embody and the Personal Development Days are an opportunity to embed this further. The themes that surround this first Personal Development Day are Responsibility, Confidence and Commemoration.

On this first Personal Development Day Year 10 will be taking part in our hugely successful "World of Science" day. This day will expose students to learning that will improve their confidence in Science and their understanding of their responsibility in the wider world. We will be hosting sessions from UWE forensics, Birds of Prey and Bristol University. Students will be in their Science groups for the day and will take part in each of the sessions on a carousel throughout the day. Students are expected to attend the day in their normal Academy uniform and the running times of the day will be the same as a normal Academy day. Students will start the day in tutor and will break into their groups for Period one.

We look forward to sharing the success of the day with you and the students.

Yours sincerely

Ms Tasha Wolyn
SL for Social Sciences/PSHE
